

USER INSTRUCTION

40LED.50LED. 60LED.80LED.100LED String Lights

Please read before installation.

Applications: Christmas Day, Halloween, New Year, Valentine's Day, party and wedding decorations, etc. It can be installed in the living room, bedroom corridor, staircase, Christmas trees, teepee. Kids tent, patio & garden, bookcase, photo frame, doors and windows, and other places you want to decorate, feel free and safe to wrap the string lights with the soft PVC coated copper wires.

Product Features:

- 1) **Flexible and Durable:** The string light is designed with super soft and flexible PVC coated copper wires. It has fine ductility and long service life. And can be moderately bent for any shape.
- 2) **Easy to Operate and Carry:** battery powered string lights, just put on battery and turn it on! Comes with a 13-key remote controller, making mode selected, brightness adjusted, and timer setting at hand easily. Remote control is with timing function to avoid forgetting to turn off the lights, you can set an auto-cycle on-off timer which is 6 hours on and 18 hours off per day by easily press the "TIMER" key. Little volume and light weight after rolled, very convenient to carry and store
- 3) **High Brightness and Energy Saving:** The luminosity of the traditional LED string lights are 90-180 degrees. while our new patented string lights are 360 degree so they are much brighter than the traditional ones. Moreover, they're designed using cold light source, with low-energy consumption, no pollution and high temperature resistant, suitable for both indoors and outdoors.
- 4) **Waterproof and Low Maintenance Rate:** With IP65 rating, which means that it is fully protected from dust and can also be protected against the effects of immersion in water to depth between So the products work properly in outdoor environment without careful maintenance.
- 5) **Quality Guarantee:** PVC copper string light is with CE, ROHS certification, remote control is with FCC certification, so the products are high quality and safe to use.

Product Specifications:

Length: 5M(16.4ft) or 10M(32.8ft)

LED Quality: 50LEDs Or 100LEDs

Wire Material: PVC + Copper Wire

Color Option: Warm White Multicolor

Power Supply: 3*AA 4. 5V battery (not included)

Current <6A

Battery Box Size: L85*W65*H23mm

String Light Waterproof Grade: IP67

Battery Box Waterproof Grade IP65

Working Temperature: -30-60°C

Working Modes: 1. Combination

2. In Wave

3. Sequential
